

# OUR VISION FOR MICHAEL

## SEAFORD CARES

**WHY** Thirteen-year old Michael Caddigan is a fighter. The name of his toughest opponent is Keratoconus - *degeneration of the cornea in both eyes*. He is from Seaford, a student at St. William the Abbot. Without treatment, Michael will lose a precious gift - his sight.

Michael and his parents, Maryalice and Arty, will be going to the Boston Foundation for Sight at the end of June, and then in August, they will be going to Germany for a procedure that is only available there. The specialized care he will be receiving is not covered by medical insurance and will need to be paid for by his parents. Your help and contributions will help ease the financial burden of medical bills, traveling and living expenses for their trips.

You can make a difference in Michael's conquest by your donation. Whatever you can provide to help raise the needed funds would be greatly appreciated. The event is being sponsored by the Testaverde Foundation, a non-profit organization. Our sincere thanks for any help you can provide.

If you cannot attend, your donation would be greatly appreciated AND can be mailed to :
